Industrial styled function room for hire **12.5m x 8.5m**

Ground floor, street access, high ceiling

Wifi, natural light, share kitchen, close to buses and trains

Filtered water, all day street parking

Looking for a unique event venue? Join us in our Woodburn Street building. Sitting next to the intersection of Regent Street and Cleveland Street on the edge of central Sydney, we are handy to trains and buses. A converted industrial warehouse, the upper floor and surrounding area of the ground floor is filled with studios for artists, designers and music producers. The interior is raw and rustic, yet clean and quaint. Slip in amongst our creative culture and let it inspire you.

Featured as one of EventBrite's Top 10 Unique Event Venues in Sydney, this space features a concrete floor, high ceilings and white washed walls. Natural light comes from West, North and East walls. A generous sized kitchen can be curtained off (see image above), toilets and outside courtyard are all shared with the residents. Feel free to bring in your own catering and alcohol.

We are popular for corporate cocktail parties, music events and as a performance space. Launch your products, make a pop up market place. Workshop conferences and presentations can use the overhead projector and white wall. Showcase and sell your work in an art exhibition. Equipment and furniture is available for hire. Double doors you see to the left of the woodfire chimney give access to the loading dock.
